## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Crates et al. (US 4,329,078).

Crates et al. discloses a coupler comprising: an axially elongated body (20) having an open end and a hollow core (fig. 2) a retractable keeper (30) adjacent the open end and slidably received within the body, the keeper being oriented substantially orthogonally to the elongated body axis and a spring (34 leaf spring) attached to the keeper for urging the keeper to a closed position (see fig. 3).

### ***Allowable Subject Matter***

Claims 2-7 are allowed.

### ***Conclusion***

Refer to attachment for notice of references cited and recommended for consideration based on their disclosure of limitations of the claimed invention.
